## IPM PARTNER® FIELD REPORTER APRIL 23, 2010

### IMPORTANT NEWS FROM THE FIELD REPORTER STAFF:

**Erratic weather has made it difficult to determine some biofix dates, particularly for Codling Moth. Female Codling Moths emerge later than males at the start of the season. Sometimes it is only a few days delay, but it can be weeks later. Traps with DA or DA-Combo lures catch both males and females. If you are using them, you can determine whether females have emerged yet. This helps give another layer of confidence in determining a spray date.**

**Kern County** (Delano/McFarland): Cool temperatures are making all flights erratic and slow. **CM**  
– Biofix 4/5, 147DD. **OFM** – Biofix 3/1, 548DD. **PTB** – Biofix 4/1, 169DD. **CRS** – Biofix 3/24, 187DD. **SJS** – Biofix 3/18, 274DD. **OLR** – Biofix 3/14, 381DD.

**Tulare County** (NE Kingsburg area except where noted): **CM** (Visalia walnuts) – Scattered trap catches and very low numbers. Biofix not set yet. **OFM** – Biofix 3/11, 482DD. A second surge of moths occurred 3/24-26. **PTB** – Tentative biofix 4/16, 58DD **CRS** (Visalia/Exeter) – Biofix 3/30, 122DD.

**Madera County:** **CM** – Biofix 4/20, 16DD. **OFM** - Biofix 3/22, 315DD. **PTB** – Biofix 4/15, 68DD. **CRS**  
– Biofix 4/15, 54DD. **SJS** – Biofix 4/6, 111DD. **OLR** – Biofix 3/22, 250DD. **NOW**- Biofix 4/15, 46DD.

**Merced County** (Ballico & Winton areas): **CM** – Biofix 4/9, 93DD. **OFM** – Biofix 3/14, 472DD. **PTB**  
– Biofix 4/15, 57DD.

**Sacramento County** (Delta area): **CM** – Very few moths trapped. No females in DA traps. Earliest moths 3/30. Biofix not set yet.

**Yuba County** (Marysville): **CM** – First moths trapped 4/9. No females in DA traps. Biofix not set yet. **OFM** – Biofix 3/5, 537DD.

**Butte County** (Gridley): **CM** – No moths trapped yet. **OFM** – Biofix 3/15, 380DD. **PTB** – No moths trapped.

**Trece is pleased to announce their latest scientific innovation, CIDETRAK® Mating Disruptant, an intelligently simple high performance dispenser for Codling Moth and Oriental Fruit Moth mating disruption.** Also, don't forget PHEROCON® CM-DA COMBO multi-gender attractant for monitoring which will give you a definite edge in your battle against the codling moth, your toughest competition. This lure has been proven to be the most effective codling moth lure on the market today. For more information on CIDETRAK or DA and CM-DA COMBO lures, and how to interpret data from trap capture, contact Jeff Downs, National Sales Manager, at 559-285-8448.
